Remedy and Nerve Toolc, and satisfied as
we are of its efficacy, I desire to purchase
directly of you. I am intelligently convinced
of the value of your Peoples' Remedies.
Send me by express one-half dozen bottles
of the Blood and Liver Remedy and Nerve
Tonic.

Respectfully,

A. N. COLE. Dr. Fenner's Blood and Liver Remedy

and Nerve Tonic may well be called "The conquering hero" of the times. It is the medical triumph of the age. Whoever has "the blues" should take it, for it regulates and restores the disordered system that gives rise to them. It always cures Billionaness and Liver Complaint, Jaundice, Dyspepsia, Constipation, Headaches, Fever and Ague, Spleen Enlargments, Scrofula, Erysipelas, Pimples, Biotches, and all skin eruptions and blood disorders; Swelled Limbs and Dropsy; Sleeplessness, Impaired Nerves and blood disorders; Swelled Limbs and Dropsy; Sleeplessness, Impaired Nerves and Nerveus Debility; Restores flesh and strength when the system is running down or going into decline; cures Female Weakness and Chronic Rheumatism, and relieves Chronic Bronchitis, and all Lung and Throat difficulties. It does these things by striking at the root of disease and removing its causes. Da Banner's Improved Cough Honey will rull ve any cough in one hour.

Dr. Fenner's Golden Relief cures any pain, as tooth-ache, neuralgia, colic or

Accidents.

At the Fair Friday afternoon, young men were driving furiously, when their buggy turned over and they were thrown out, one of them having his leg broken at the ankle joint. Dr. McClaren was called, and after an examination pronounced it a serious break. The bones were set and the young man sent to his home to reflect, and we hope, to resolve that he drinks under any circumstances. One of the horses in the "Sweep

Wellington Fair. The 24th Annual Fair of the Wellington Union Agricultural Society, is now an event of the past. That it has been one of the most successful held for many years, both in regard to the exhibition and amusements furnished, and

also financially, is the verdict of the officers and those in attendance. The entries numbered over a thousand and every department was well represented, except that of agricultural graphs when the picture, form and products, the early date of the Fair shading are all ready-made. The horse trotting, though quite as good as in former years, was not, we are glad to say, the absorbing interest of the Fair. More than any other animal, we admire the horse, and we like to see free, easy, graceful, and rapid movement, but beyond a certain degree, speed is not useful for practical purposes and ought not to be cultivated at the expense of other and more serviceable qualities. We tear, however, that less attention is being paid in this section to the breeding of fine horses for roadsters and general purposes than would be to the interests of our farm-

less attention given to horses than cattle and other domestic animals. The athletic department, which was an entirely new feature, added much interest and gave, as we think, incocent pleasure to those in attendance. As usual, Floral Hall was one of th chief attractions. The arrangement and display of the articles on exhibition was under the direction of Mr. T. Russell, and we do no injustice to any former management when we say it has never been more skillfully and beautifully done.

It would seem that unusual attention was being given to the domestic arts by the number and excellence of the ragcarpets shown. Hard times in money matters has the effect to drive many women to ingenious methods of beautifying the home and making it comfortable by the industrious utilizing of such materials as are in her reach, and the well-made rag-carpet represents a large outlay of time, taste and hard work and small outlay of money, but it makes a carpet possible when otherwise it probably would be done with-

The center of Floral Hall was conpicuous as a mass of flowers and house plants, ten wagon loads were brought there and so arranged that all were kept moist and in the highest degree children continue to enquire of the ignorant store-keepers that remain if there isn't a letter for Mr. or Mrs. or Miss so and so, and keep on stareing at the pigeon holes of our private desk as the pigeon h the pigeon holes of our private desk as pared with those of her opponent, but they believed there were still letters they went to work with a will and despite they went to work with a will and despite they went to work with a will and despite they went to work with a will and despite they went to work with a will and despite they went to work with a will and despite they went to work with a will and despite the went to work with a will and des there were a number shown. Harnesses from Otterbacker's, hardware from J. H. Wooley's, boots and shoes from Husted's, millinery from Mrs. Palmer's, druggists sundries from Everett & Starr's, dry goods from Baldwin, Laundon & Co.'s, and clocks, watches, silver ware and jewelry from J. H. Wight's, each made an attractive show of goods in a limited space. The interest manifested in examining these departments shows what might be done of the parsonage at New London, by in this line if we had a suitable building which Rev. W. L. THE FARMER'S FRIEND PLAIN DRILL.

This Drill has been for many years before the public, and its high reputation has been so fully established that for thousands of our reader an extended description is not necessary; but to our many friends who have examined it only cassually, and others who may wish to buy and have no knowledge of it, I will show with pleasure. SUPER-PHOSPHATE OF LIME.

Eight good reasons why every Farmer should use the Homestead brand of Super-Phosphate:

Because it gives the crop a quick and vigorous start. It matures the crop from 10 to 15 days earlier than any other phosphate in manure starts. er manure, thereby, in many cases sav-ing the entire crop from early frost. It will increase your crop from 50 to 100 per cent. It adds a permanent value to your soil. You cannot keep up the fertility of your soil unless you re-store to it what you take away by constant crohping. It will always prove what it is recommended to be, genuine ket till analyzed and known to be up to the required standard. It is reduced to a fine, dry powder, which can be sown with a drill, thereby insuring a great economy in its use on grain
